

# vazu, a vase like you've never seen

vazu vase is no thicker than a piece of paper when flat. Fill it with water and it takes shape and is very stable

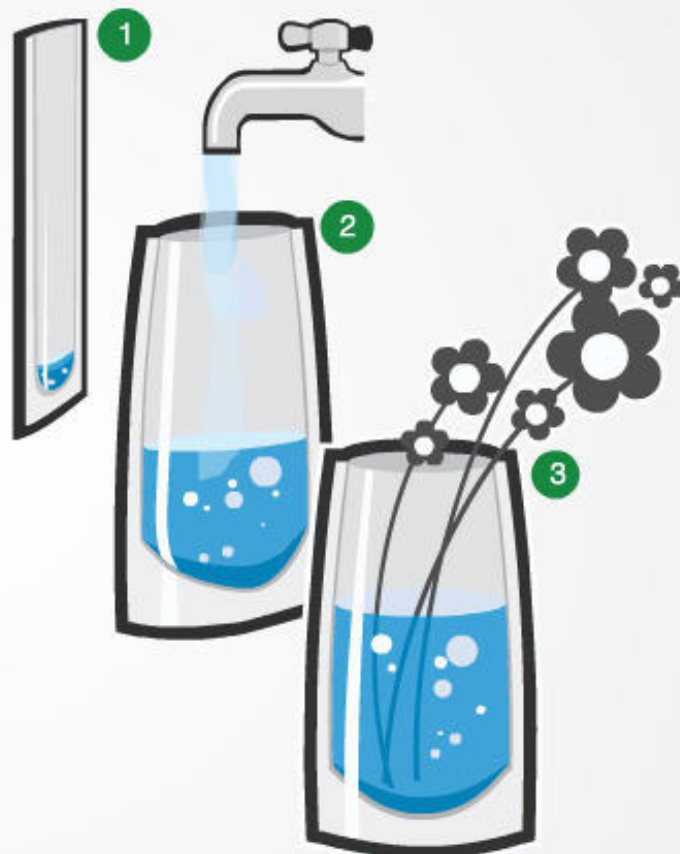

## vazu™ Concept

Vases are always prized as a centerpiece. They hold bouquets and complement the floral arrangement with their own design, fluid lines and stability. But suddenly you behold something totally surprising. You know it's a vase, but what is it made of? Is that some kind of glass or crystal?

## Actually, it's vazu™

Forget about the vases you know, and open-up to a whole new and exciting concept, where nothing is like what it seems. vazu™ takes design to a new level, offering a trendy conversation item, brimming with fresh ideas, just like a bunch of newly cut flowers. It is so "out of the box" - it's flat like paper, but once you touch it, open it and fill it with water - you are inspired by the ingenuity.

Come take a tour of vazu™. and you will never look at vases the same way.

## The vazu family has two main lines of products.

### The "GiftPack" line

Enclosed in a beautiful and elegant envelope, vazu GiftPack is the most perfect gift! The smile of the recipient gives way to open-eyed amazement, and the stylish vazu is immediately filled and placed in a prominent place, for all to adore. Available in several sizes and design.

### The "Tear-Off-Top" line

Tear off Top vazú™ vases, as per their name, are vases that you only need to tear off their top, add some water and then they are ready to receive your flowers and bring joy to all. Available in several sizes and design, the Tear off Top vases are an absolutely must have in any house.

## About vazú™

T.H.+E. is a multi-disciplinary design group with experience in a wide range of areas. Just like the vazú™, the group is flexible and open to the unconventional. Thinking "out of the box" is not just an expression – it's our daily practice. Nevertheless, designs are always linked with functionality. In creating vazú™, T.H.+E. Design Group keeps "hands on" from initial planning, designing and all the way to the final product. vazú™ is manufactured using advanced technology and under strict procedures, and adheres to ISO 9001/2000, HACCP and BRC-IOP certificates. The vazú™ is continuously tested to ensure safe and long-lasting usage. No wonder vazú™ is sold in retail giants such as IKEA® and TARGET®. A great concept and product goes a long way.
